## Kindergarten GSE: SKL1

Working together, the class will create a forest habitat including both living and non-living components.

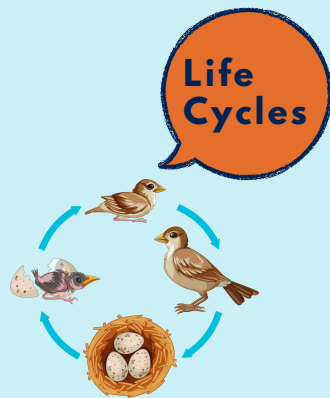

## First Grade GSE: S1L1

Each student will create their own model of a plant showcasing each of its parts and their important functions.

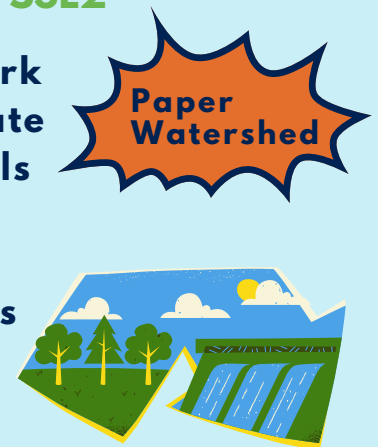

## Second Grade GSE: S2L1

Each student will complete a life cycle diagram and the class will reinforce concepts with a unique "memory" game.

## Third Grade GSE: S3L2

Students will work in groups to create watershed models to demonstrate how pollution enters and moves through a watershed.

## Fourth Grade GSE: S4E3

Students will play an interactive game to explore the many paths water can take as it moves around our planet.

## Fifth Grade GSE: S5L4

Students will work in groups and follow clues to discover the source of a mysterious illness outbreak in 19th century London.
