# SECTION 1 INTRODUCTION

## 1.1 PROJECT DESCRIPTION

The Water Resources Department (WRD) of Fulton County, Georgia (“County”) plans to implement an Automated Vehicle Information and GPS Location System (AVL) capable of reporting real-time and historical engine diagnostics, implement utilization and location information for all of its fleet of 175 vehicles and trucks and 20 pieces of heavy equipment. The WRD fleet includes passenger cars, light duty trucks (ex. pickup trucks, SUVs), heavy duty trucks (ex. dump trucks, Vector trucks), and earth moving equipment (front end loader, backhoe).

The successful product will be a web-based system and have the capability to monitor real-time and historical data and report the following vehicle information: engine diagnostic faults, current and historical usage of implements, current and historical vehicle usage (ex. speed at a given time), browser based map application depicting the current and historical point locations of vehicles, an alert mechanism for geo-fence violations, and the ability to export reports into tabular format that can be imported into Microsoft Excel spreadsheets.

Proposals provided in response to this RFP that comply with the submittal requirements set forth in Section 4.0, including all forms and certifications, will be evaluated in accordance with the criteria and procedures described in Section 5.0. Based on the results of the evaluation, the County will award to the most advantageous Proposer based on the evaluation factors costs set forth in the RFP.

## 1.2 BACKGROUND

WRD provides water and sewer service to Fulton County citizens and businesses. WRD operates a water distribution system in north Fulton County and a waste water collection system in north and south Fulton County. WRD staff and crews are assigned to 4 different service centers across Fulton County. These include North Fulton Sewer, North Fulton Water, South Fulton Sewer, and The Fulton County Government Center. Vehicles are located at all 4 service centers, and staff are deployed from each service center and travel throughout Fulton County.

WRD fleet has 175 vehicle units and 20 pieces of heavy equipment. Vehicles utilized by the WRD that are included in this announcement are passenger pickup trucks, heavy duty trucks to include dump trucks and vector trucks, and passenger vehicles that include cars and SUVs. Heavy equipment include earth moving equipment (front end loader, backhoe).

---

### 1.3 COUNTY OBJECTIVES

The following are the County Objectives for this project:

- The purpose of the system is to identify the locations of fleet vehicles and to capture data about vehicle diagnostics and use of equipment implements.
- The system must be capable of logging and displaying on a map Real-Time locations and historical locations and tracks of fleet vehicles. Positions must be capable of 2 minute updates for Real-Time postings. Historical data must be kept for a minimum of 120 days with the ability to display the logged locations, tracks and all instrument details for historical periods. Access to historical archive data must be provided.
- The system must have a UI that is web based and has the capability to produce reports related to fault codes active on the vehicle, map of vehicle tracks, travel velocities, travel distances, equipment implement utilization, geo alerts, and last known location. All reports must be date and time enabled.
- The system must be designed to consume OGC WMS/WFS services, especially ESRI AGS services. The capability to consume two or more map services into the map viewer is essential. The capability to consume AGS map services from a County IP address.
- The company providing the services must have options for a fully hosted solution from the provider's facilities and also potential deployment from the County network.
- A hosted solution is preferred. If a hosted system is utilized, the system must also be able to deliver location data to a county server via a web service, preferably an OGC WMS/WFS service. This should be done via a request from the county system and not a "push" from the source server at the company. The County will utilize the AVL data service as a layer inside internal web mapping applications.
- The option to select any individual items and receive varying price based on utilized components.
- The proposed system must not leverage any current cellular contract that the County has engaged in with a cellular provider.
- On-going customer support for the entire system must be provided by the proposer.

## SECTION 6 CONTRACT COMPLIANCE REQUIREMENTS

### 6.1 NON-DISCRIMINATION IN PURCHASING AND CONTRACTING

It is the policy of Fulton County Government that discrimination against businesses by reason of the race, color, gender or national origin of the ownership of any such business is prohibited. Furthermore, it is the policy of the Board of Commissioners ("Board") that Fulton County and all vendors and contractors doing business with Fulton County shall provide to all businesses the opportunity to participate in contracting and procurement paid, in whole or in part, with monetary appropriations of the Board without regard to the race, color, gender or national origin of the ownership of any such business. Similarly, it is the policy of the Board that the contracting and procurement practices of Fulton County should not implicate Fulton County as either an active or passive participant in the discriminatory practices engaged in by private contractors or vendors seeking to obtain contracts with Fulton County.

#### **Implementation of Equal Employment Opportunity (EEO) Policy**

The County effectuates Equal Employment Opportunity thru Policy #800-8, Non-Discrimination in Contracting and Procurement. This policy considers racial and gender workforce availability. The availability of each workgroup is derived from the work force demographics set forth in the 2000 Census EEO file prepared by the United States Department of Commerce for the applicable labor pool normally utilized for the contract.

#### **Monitoring of EEO Policy**

Upon award of a contract with Fulton County, the successful bidder/proposer must complete an Equal Employment Opportunity Report (EEOR), describing the racial and gender make-up of the firm's work force. If the EEOR indicates that the firm's demographic composition indicates underutilization of employee's of a particular ethnic group for each job category, the firm will be required to submit an aggressive action plan setting forth steps the firm will take to address the identified underutilization.

### 6.2 EQUAL BUSINESS OPPORTUNITY PLAN (EBO PLAN)

In addition to the proposal submission requirements, each vendor **must** submit an Equal Business Opportunity Plan (EBO Plan) with their bid/proposal. The EBO Plan is designed to enhance the utilization of a particular racial, gender or ethnic group by a bidder/proposer, contractor, or vendor or by Fulton County. The respondent **must** outline a plan of action to encourage and achieve diversity and equality in the available procurement and contracting opportunities with *this solicitation*.

The EBO Plan **must** identify and include:

1. Potential opportunities within the scope of work of *this solicitation* that will allow for participation of racial, gender or ethnic groups.

- 
2. Efforts that will be made by the bidder/proposer to encourage and solicit minority and female business utilization in *this solicitation*.

Fulton County encourages joint ventures, teaming, partnering and mentor-protégé relationships with minority and female businesses in an effort to achieve contracting and procurement diversity.

**Prompt Payment:** The prime contractor **must** certify in writing and **must** document all subcontractors, sub-consultants and suppliers have been promptly paid for work and materials, (less any retainage by the prime contractor prior to receipt of any further progress payments). In the event the prime contractor is unable to pay subcontractors, sub-consultants or suppliers until it has received a progress payment from Fulton County, the prime contractor shall pay all subcontractors, sub-consultants or suppliers funds due from said progress payment within forty-eight (48) hours of receipt of payment from Fulton County. In no event shall a subcontractor, sub-consultant or supplier be paid later than fifteen (15) days as provided for by state law.

### 6.3 DETERMINATION OF GOOD FAITH EFFORTS

During the course of the project, the Prime Contractor shall demonstrate that they have made all efforts reasonably possible to ensure that Minority and Female Business Enterprises (MFBE) have had a full and fair opportunity to compete and win subcontracts on this project. The Prime Contractor is required to include all outreach attempts that would demonstrate a “Good Faith Effort” in the solicitation of sub-consultants/subcontractors.

Written documentation demonstrating the Prime Contractor’s outreach efforts to identify, contact, contract with or utilize Minority or Female owned businesses shall include holding pre-bid conferences, publishing advertisements in general circulation media, trade association publications, minority-focused media, and the County’s bid board, as well as other efforts.

Include a list of publications where the advertisement was placed as well as a copy of the advertisement. Advertisement shall include at a minimum, scope of work, project location, location(s) of where plans and specifications may be viewed or obtained and trade or scopes of work for which subcontracts are being solicited.

### 6.4 REQUIRED FORMS AND EBO PLAN

In order to be compliant with the intent and provisions of the Fulton County Non-Discrimination in Purchasing and Contracting Ordinance (99-0960), bidders/proposers **must** submit the following completed documents. Failure to provide this information **shall** result in the proposal being deemed non-responsive.

- Exhibit A – Promise of Non-Discrimination
- Exhibit B – Employment Report

- 
- Exhibit C – Schedule of Intended Subcontractor Utilization
  - Exhibit D – Letter of Intent to Perform as a Subcontractor or Provide Materials or Services
  - Exhibit E – Declaration Regarding Subcontractors Practices
  - Exhibit F – Joint Venture Disclosure Affidavit
  - Equal Business Opportunity Plan (EBO Plan). This document is not a form rather a statement created by the bidder/proposer on its company letter head addressing the EBO Plan requirements.
  - Exhibit H – First Source Jobs Program Information, Form 1

The following document must be completed as instructed if awarded the project:

- Exhibit G – Prime Contractor's Subcontractor Utilization Report
- Exhibit H – First Source Jobs Program Agreement, Form 2

All Contract Compliance documents (Exhibits A – H and EBO Plan) are to be placed in a **separate sealed envelope** clearly marked "Contract Compliance". The EBO Plan must be submitted on company letterhead. These documents are considered part of and should be submitted with the Technical Proposal.

For the purposes of the Professional Services Indemnity above, a "Negligent Professional Act" means a negligent act, error, or omission in the performance of Professional Services (or by any person or entity, including joint ventures, for whom Consultant/Contractor is liable) that causes liability and fails to meet the applicable professional standard of care, skill and ability under similar conditions and like surrounding circumstances, as is ordinarily employed by others in their profession.

**22.1.2 Non-Professional Services Indemnification.** Consultant/Contractor hereby agrees to indemnify and hold harmless Fulton County, its Commissioners and their respective officers, members, employees, and agents (each, hereinafter referred to as an "Indemnified Person") from and against any and all claims, demands, liabilities, losses, costs or expenses, including attorneys' fees due to liability to a third party or parties, for any loss due to bodily injury (including death), personal injury, and property damage arising out of or resulting from the performance of this Agreement or any act or omission on the part of the Consultant/Contractor, its agents, employees or others working at the direction of Consultant/Contractor or on its behalf, or due to any breach of this Agreement by the Consultant/Contractor or due to the application or violation of any pertinent Federal, State or local law, rule or regulation. This indemnification is binding upon to the successors and assigns of Consultant/Contractor. This indemnification does not extend to the sole

negligence of the Indemnified Persons nor beyond the scope of this Agreement and the work undertaken thereunder. This indemnification survives the termination of this Agreement and shall also survive the dissolution or to the extent allowed by law, the bankruptcy of Consultant/Contractor.

**22.2 Notice of Claim.** If an Indemnified Person receives written notice of any claim or circumstance which could give rise to indemnified losses, the receiving party shall promptly give written notice to Consultant/Contractor, and shall use best efforts to deliver such written notice within ten (10) Business Days. The notice must include a copy of such written notice of claim, or, if the Indemnified Person did not receive a written notice of claim, a description of the indemnification event in reasonable detail and the basis on which indemnification may be due. Such notice will not stop or prevent an Indemnified Person from later asserting a different basis for indemnification. If an Indemnified Person does not provide this notice within the ten (10) Business Day period, it does not waive any right to indemnification except to the extent that Consultant/Contractor is prejudiced, suffers loss, or incurs additional expense solely because of the delay.

**22.3 Defense.** Consultant/Contractor, at Consultant/Contractor's own expense, shall defend each such action, suit, or proceeding or cause the same to be resisted and defended by counsel designated by the Indemnified Person and reasonably approved by Consultant/Contractor (provided that in all instances the County Attorney of Fulton County Georgia shall be acceptable, and, for the avoidance of doubt, is the only counsel authorized to represent the County). If any such action, suit or proceedings should result in final judgment against the Indemnified Person, Consultant/Contractor shall promptly satisfy and discharge such judgment or cause such judgment to be promptly satisfied and discharged. Within ten (10) Business Days after receiving written notice of the indemnification request, Consultant/Contractor shall acknowledge in writing delivered to the Indemnified Person (with a copy to the County Attorney) that Consultant/Contractor is defending the claim as required hereunder.

**22.4 Separate Counsel.**

**22.4.1 Mandatory Separate Counsel.** In the event that there is any potential conflict of interest that could reasonably arise in the representation of any Indemnified Person and Consultant/Contractor in the defense of any action, suit or proceeding pursuant to Section 6.3 above or in the event that state or local law requires the use of specific counsel, (i) such Indemnified Person may elect in its sole and absolute discretion whether to waive such conflict of interest, and (ii) unless such Indemnified Person (and, as applicable, Consultant/Contractor) elects to waive such conflict of interest, or in any event if required by state or local law, then the counsel designated by the Indemnified Person shall solely represent such Indemnified Person and, if applicable, Consultant/Contractor shall retain its own separate counsel, each at Consultant/Contractor's sole cost and expense.

**22.4.2 Voluntary Separate Counsel.** Notwithstanding Consultant/Contractor's obligation to defend a claim, the Indemnified Person may retain separate counsel to participate in (but not control or impair) the defense and to participate in (but not control or impair) any settlement negotiations, provided that for so long as Consultant/Contractor has complied with all of Consultant/Contractor's obligations with respect to such claim, the cost of such separate counsel shall be at the sole cost and expense of such Indemnified Person (provided that if Consultant/Contractor has not complied with all of Consultant/Contractor's obligations with respect to such claim, Consultant/Contractor shall be obligated to pay the cost and expense of such separate counsel). Consultant/Contractor may settle the claim without the consent or agreement of the Indemnified Person, unless the settlement (i) would result in injunctive relief or other equitable remedies or otherwise require the Indemnified Person to comply with restrictions or limitations that adversely affect or materially impair the reputation and standing of the Indemnified Person, (ii) would require the Indemnified Person to pay amounts that Consultant/Contractor or its insurer does not fund in full, (iii) would not result in the Indemnified Person's full and complete release from all liability to the plaintiffs or claimants who are parties to or otherwise bound by the settlement, or (iv) directly involves the County (in which case the County of Fulton County, Georgia shall be the only counsel authorized to represent the County with respect to any such settlement).

**22.5 Survival.** The provisions of this Article 6 will survive any expiration or earlier termination of this Agreement and any closing, settlement or other similar event which occurs under this Agreement.

## ARTICLE 23. CONFIDENTIALITY

### **3. Application Programming Interfaces (API) Protocol**

An application-programming interface (API) is a particular set of rules ('code') and specifications that software programs can follow to communicate with each other. The County prefers the use of service-oriented APIs that is not bound to a specific process or system as well as providing remote procedure calls or web services. Comprehensive documentation for APIs and data exchange protocols is subject to acceptance testing and approval. All APIs must conform to version upgrades, O/S upgrades, web browser upgrades, etc.

### **4. Testing and Acceptance**

All new systems and/or products will undergo a process of testing and acceptance. This process shall include the following minimum testing procedures prior to final acceptance by Fulton County Government:

1. The proposer shall certify in writing to the County that the system is completely installed, meets all requirements, is free of defects, the data conversion is complete and accurate, and the total system (application, file building, conversion, back-up and recovery procedures, etc.) is ready for operation.
2. The proposer shall be prepared to demonstrate all functions of the system prior to the start of user acceptance testing.
3. The proposer shall provide documentation and interface specifics on each interface provided. The burden of proof regarding on how each interface conforms to the IT Standards and Procedures is the responsibility of the proposer.
4. Upon receipt of the letter of certification from the vendor, Fulton County has a minimum of a sixty-day period to commence the process that will either accept or deny the acceptance the letter of certification. User acceptance testing will include an intensive exercise of each component and module of the system simulating a normal workload. This testing will provide assurance that the various components and modules of the system operate as specified. During this period, the system shall demonstrate a total availability of 99.99% or better.

- **Acceptance Criteria**

1. The solution meets the current published product specifications and documentation;
2. The solution is capable of running a variety of data on a repetitive basis without failure;
3. The solution meets the requirements and specifications described in this document and the functional requirements described in their bid response or response to RFP;
4. All documentation has been delivered and accurately reflects the operation of the solution;
5. All specified training has been conducted and accepted by Fulton County;
6. The interfaces properly provide the data necessary without disrupting the performance of the system or disrupting any of the original data files.
7. Once this acceptance testing is complete, the warranty period begins.

- **System Unavailable Criteria**

1. Any component or module capability is not available to all active workstations.
2. Any feature or specification either required within this document or stated in the proposer's response to bid or RFP does not perform as stated.
3. Conversion of all existing data files is not complete or is incompatible.
4. Interfaces are not complete and working.
5. Reporting features are not available and in compliance with requirements.
6. Training is incomplete or deemed inadequate by DoIT.

All new systems and/or products will undergo a process of testing and acceptance. This process shall include the following minimum testing procedures prior to final acceptance by Fulton County Government:

In addition, if the system requires a new install, either manually or automatically, for one hour or greater, the actual down time statistics will reflect the system as an outage.

In the event that the required level of reliability is not demonstrated by the end of the 60 day period, the County may extend the acceptance testing by another sixty (60) days. The Proposer must correct any deficiencies with the system in this time frame. If this extension is permitted, the Proposer shall reinitiate certification by submitting a revised letter of certification to the County specifying the corrections made to the system. The certification process described above will then be repeated.

Final acceptance will be made after the warranty period begins. This period will be a sixty-day (60) period of closely monitored post implementation support provided by the proposer to resolve any issues that may arise after the system has been placed into production.

## **5. Training Requirements**

The Vendor shall provide a detailed, documented training plan outlining the agenda regarding training goals, learning objectives, and learning methods. The training plan shall also include any prerequisites required for training for both the end-user and technical support staff. If learning objectives are not met at the end of the training period, the Vendor shall provide alternates means to meet learning objectives within the implementation process.

### **5.1. End-User Training**

End-User Training must identify the types, amounts, duration, and costs. The proposer shall include a plan that results in acceptable training for all levels of the system's operation. The vendor shall recommend best practices and system configuration for effective system set up. Using this information, the vendor will prepare a manual (softcopy, searchable PDF) that defines the workflow processes and procedures for users. The vendor shall provide a sample of the typical manual or training approach as part of their response.

### **5.2. Administrative/IT Training**

The proposer shall prepare a training plan for IT staff that will enable them to administer and support the system. This plan shall include any courses off-site, classroom training, and on-the-job training necessary for systems analysts, computer operators, security personnel, programmers, database, web and network personnel. Training will include the complete support and custom programming and custom reporting to applicable staff. Describe any prerequisite knowledge or skills required. The proposal must include the cost associated with training.

Additionally, the vendor must clearly define a description of the recommended number and type of staff required to support the system. The skill sets required of each individual should be included in this description. The description of recommended staffing requirements should include all management, technical

and functional areas for the ongoing support of the system. The minimum training requirements include, at minimum, two employees in all support roles. The instructional method of "Train the trainer" is not a valid training platform.

During this training, Fulton County will designate senior technical personnel in each class to evaluate the training provided in order to ensure that the training and the instruction provided is sufficient to provide the necessary knowledge and skills. At the end of the first day of any training class, a signoff must be obtained from this designee in order for the proposer to meet this requirement.

## 6. Product Solution Documentation

It is required that the vendor provide an electronic copy, and optionally, a hardcopy of the following documentation. Please list all reproducible (DVD or CD format only) copies of documentation which is a criteria for system acceptance.

For example:

1. User training manuals for all transactions and functions supported
2. Data Dictionary, data model/entity relationship and data flow diagrams
3. System module chart (application flow) showing each application module and its relation to the other modules
4. General system design and reference information
5. System transaction flow and control
6. List of all application programs, with summary of their purpose or function including a table of all procedures or processes and which processes are called by what other processes
7. Detailed program documentation within each source module
8. Table definitions and record layouts
9. Definition of all system control tables
10. Report and workstation display formats
11. A listing of all "canned" reports complete with full descriptions
12. The County shall be granted the rights to duplicate documentation for record and training purposes.

**Vendor agrees that the solution/response provided to this solicitation will be compatible with Fulton County Standards indicated above and will meet all the criteria listed in the Appendix Fulton County Standards**

Yes \_\_\_\_\_ No \_\_\_\_\_

**Exceptions: Please explain any reason for not being able to comply with the County Standards stated in this Appendix.**
