This Addendum forms a part of the contract documents and **modifies** the original RFP documents as noted below:

Questions Submitted and Fulton County's official response to questions

QUESTIONS: Does the county's request 10 Contractor cabinets having locking front and back doors or can the Contractor cabinets be four post racks without a front & back enclosures? (4 post racks are cheaper and can be deployed in a slightly denser configuration)

RESPONSE: *The County requires a locking caged area (Section 7.1.D). There is no requirement for locking front or back doors on individual cabinets. The County prefers, for operational reasons, to maintain the requirement for standard cabinets, as described within Section 7.2.A.*

QUESTIONS: If the Contractor provided cabinets have perforated front and rear cabinet doors, does the county require cabinet fans? (Fans are typically not required when door are perforated)

RESPONSE: *The County maintains the requirement for cabinet fans described within Sections 7.2.A. and 7.2.E.*

QUESTIONS: Our cage panels come in 2 foot and 4 foot varieties. Would a 20 x 24 cage be acceptable or is 20 x 26 more preferred?

RESPONSE: *The County requires a minimum dedicated caged area of 500 sq. ft. (20'X25'), per Section 7.1.D. A 20'X24' (480 sq. ft.) caged area will **NOT** be acceptable. However, the County has no objection to receiving a caged area larger than the minimum requirement (e.g. 20'X26' or 520 sq. ft.).*

QUESTIONS: Please confirm the total – Ten (10) Contractor cabinets and (10) County free standing equipment maximum installation.

RESPONSE: *The County requires a maximum of Ten (10) Contractor-provided uniform cabinets and (10) County-provided free-standing equipment cabinets (various sizes). See Section 7.1.D*

QUESTIONS: Please confirm the total – Max power draw will be 83kW.

RESPONSE: ***The County does not have a maximum power draw identified at this time. Respondents are expected to use a constant of 83kW for the purpose of submitting a bid (Section 11.B.2 (Pricing Forms)). Actual maximum power draw will be determined by the final equipment configuration after award.***
