Title

Response to Question

Question: Would it be possible for you to send me the waypoints on GIS System for the manholes link, I was able to locate this link: <http://www.fultoncountyga.gov/gis-maps>, however, it did not show where the manholes are located.

Also, the approximate location where you would like the site inspections, if known at this time.

Answer: The information regarding the catch basin data points will be provided to the selected vendor as required. Also the locations for the complaint investigations will occur throughout the entire County and is driven by demand.
