FULTON COUNTY COVID-19 VACCINATION REPORT

Numbers are based on Fulton population from 2018 Census data.

NUMBER OF FULTON RESIDENTS FULLY VACCINATED

510,852

PERCENT OF FULTON RESIDENTS FULLY VACCINATED

49.9%

NUMBER OF FULTON RESIDENTS WITH AT LEAST ONE DOSE

583,083

PERCENT OF FULTON RESIDENTS WITH AT LEAST ONE DOSE

57.1%

Compared to the State of Georgia, which has 42% of its population fully vaccinated, Fulton County is doing better than the state.

Fig. 1. Both Georgia and Fulton County are below the White House goal of having 70% of adults with at least one dose.

White House 70% Goal

Percentage of residents with at least one dose

50%  57%

Georgia  Fulton County

Green line indicates expanded eligibility to all Georgians aged 16 and up.
Children under 12 are not yet eligible for vaccination. For information on vaccine eligibility and availability, or to schedule your Covid-19 vaccine, [click here](#). Percentages refer to the percentage of age group population with at least one dose. Percentage vaccinated might appear to exceed the estimated number of individuals in a given age group or category. This could be due to increases in current resident numbers versus census estimates, which are based on 2018 census data.

**Fig. 2. Number of Residents with At Least One Dose By Age**

![Bar chart showing number of residents with at least one dose by age group.](image)

25-64 year olds account for 65% of all residents with at least one dose.

**Fig. 3. Age Distribution Among All Fulton Residents with At Least One Dose**

N = 583,083
