FULTON COUNTY COVID-19 VACCINATION REPORT

NUMBER OF FULTON RESIDENTS FULLY VACCINATED

540,150

PERCENT OF FULTON RESIDENTS FULLY VACCINATED

53%

NUMBER OF FULTON RESIDENTS WITH AT LEAST ONE DOSE

609,126

PERCENT OF FULTON RESIDENTS WITH AT LEAST ONE DOSE

60%

Compared to the State of Georgia, which has 46% of its population fully vaccinated, Fulton County is doing better than the state.

Fig. 1. Both Georgia and Fulton County are below the White House goal of having 70% of adults with at least one dose.
Children under 12 are not yet eligible for vaccination. For information on vaccine eligibility and availability, or to schedule your Covid-19 vaccine, click here. Percentages refer to the percentage of age group population with at least one dose. Percentage vaccinated might appear to exceed the estimated number of individuals in a given age group or category. This could be due to increases in current resident numbers versus census estimates, which are based on 2018 census data.

- Population in Fulton
- Number Vaccinated

Female: 61%
Male: 57%
Unknown:
Fig. 8. – Fulton County Residents with At Least One Dose by Census Tract
Fig. 9. Percent Complete Vaccination and COVID-19 Case Rate (per 100,000 population) by Census Tract, August 16 – September 12, 2021

How to interpret these colors: The darker the blue, the better. The upper most blue box indicates low COVID-19 case rates and high vaccination coverage. Red is not ideal as red indicates high COVID-19 case rates and low vaccination coverage. Colors in between indicate varying combinations of COVID-19 case rates and vaccination coverage. COVID-19 case rate reflects new COVID-19 cases diagnosed between August 16 and September 12, 2021 across Fulton County.
