INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners Water and Sewerage System Fund Fulton County, Georgia

We have audited the accompanying financial statements of the business activities of the Water and Sewerage System Fund of Fulton County, Georgia, which comprise the statements of net position as of December 31, 2013 and 2012, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business activities of the Water and Sewerage System Fund of Fulton County, Georgia as of December 31, 2013 and 2012, and the respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis
(in thousands of dollars)
December 31, 2013

Within this section of the Fulton County Water and Sewerage System Fund (the "System") annual financial report, System management provides narrative discussion and analysis of the financial activities of the System for the fiscal years ended December 31, 2013 and 2012. The financial performance of the System is discussed and analyzed within the context of the accompanying financial statements and disclosure following this section. The System is the major enterprise fund of Fulton County, Georgia.

Financial Highlights

Total assets reported in the financial statements are \$1,469,013 for the fiscal year ended December 31, 2013. This compares to the previous year when total assets reported were \$1,497,085 representing a decrease of \$28,072, the primary components of which is depreciation on assets of approximately \$33 million.

System bonded debt of \$522,632 decreased from 2012 by a net \$6,608 net of principal payments and amortization of bond premiums on outstanding Water and Sewerage revenue bonds. The outstanding balance of the 2004 revenue bonds totaling \$246,575 were refinanced with proceeds from the 2013 revenue bonds to attain debt service present value savings of over \$40 million over the life of the remaining bonds. All other liabilities decreased by \$14,161 from 2012.

System net position decreased by \$8,152 during 2013, as compared to 2012's decrease of \$29,570. An approximate \$12 million increase in operating income is attributed to significantly lower operating costs as sewer flows were redirected to existing facilities. Lower debt service costs due to the 2013 and 2011 bond refunding provided an improved change in net position from 2012. Recognition of an unusual and infrequent accounting loss from the 2013 bond refunding of \$8,434 comprises the primary decrease in Net position for 2013. Total net position at December 31, 2013 was \$947,593, of which \$36,924 is restricted for future debt service, and \$664,445 represents the net investment of capital assets in excess of the related debt to acquire these assets. Unrestricted net position available for system operations and improvements totaled \$246,224 as of December 31, 2013, a slight increase of \$7,887 from December 31, 2012.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the System's basic financial statements. The basic financial statements include: (1) statements of net position, (2) statements of revenues, expenses and changes in net position, (3) statements of cash flows, and (4) notes to the financial statements.

Basic Financial Statements

The System's annual report includes three basic financial statements. These statements provide both long-term and short-term information about the overall status of the System. Financial reporting of the System uses a perspective similar to that found in the private sector with its basis in full accounting.

The first of these basic statements is the *Statement of Net Position*. This statement presents information that includes all of the System assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the System as a whole is improving or deteriorating.

Management's Discussion and Analysis
(in thousands of dollars)
December 31, 2013

Basic Financial Statements (continued)

The second System statement is the *Statement of Revenues, Expenses and Changes in Net Position* which reports how the System net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

The third System statement is the *Statement of Cash Flows* which reports how the System's cash position has changed during the current fiscal year.

The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the data provided in the other basic financial statements.

Financial Analysis

The table below provides a summary of Water and Sewerage System fund net position (in thousands):

Assets:	2013	2012	2013-2012 Net change	% change	2011	2012-2011 Net change	% change
Current assets	\$ 166,028	169,259	(3,231)	(2)	164,314	4,945	3
Restricted assets	94,446	108,563	(14,117)	(13)	124,094	(15,531)	(13)
Capital assets, net of depreciation	1,129,611	1,138,176	(8,565)	(1)	1,154,935	(16,759)	(1)
Other non current assets	78,928	81,087	(2,159)	(3)	89,356	(8,269)	(9)
Total assets	1,469,013	1,497,085	(28,072)	(2)	1,532,699	(35,614)	(2)
Deferred Outflows of Resources:							
Deferred charge on refunding of bonds	6,848	7,697	(849)	(11)		7,697	-
Total deferred outflows of resource	es 6,848	7,697	(849)	(11)		7,697	-
Liabilities:							
Current liabilities	9,235	24,324	(15,089)	(62)	12,794	11,530	90
Long-term liabilities	519,033	524,713	(5,680)	(1)	534,590	(9,877)	(2)
Total liabilities	528,268	549,037	(20,769)	-	547,384	1,653	-
Net postion:							
Net investment in capital assets	664,445	677,926	(13,481)	(2)	700,911	(22,985)	(3)
Restricted for debt retirement	36,924	39,482	(2,558)	(6)	39,316	166	-
Unrestricted	246,224	238,337	7,887	3	245,088	(6,751)	(3)
Total net position	947,593	955,745	(8,152)	(1)	985,315	(29,570)	(3)

The System's assets above decreased from depreciation on water and sewer infrastructure from development, for fiscal 2013.

Long-term liabilities decreased due to decreases in short term payables and reductions in scheduled principal with the 2013 refunding of the outstanding 2004 Water and Sewer revenue bonds. Net investment in capital assets also saw the decrease commensurate with the reduction in capital assets due to depreciation.

Beginning Net Position, as restated		955,745	985,315	(29,570)	(3)	1,015,644	(30,329)	(3)
Ending Net Position	\$ =	947,593	955,745	(8,152)	(1)	985,315	(29,570)	(3)

The System experienced a slight decrease in water and sewer revenues in 2013 as compared to 2012, but similar to 2011's revenues. Rainfall totals impact customer usage for irrigation, which can affect overall system revenues year after year. Operating service costs declined again for 2013 to 2012, mainly due to lower sewer treatment costs attained from diverting flows to lower cost facilities, even netted against the slightly higher cost of contractual costs to operate these sewer treatment plants. Administrative costs increased with higher required pension contributions. Interest costs decreased slightly with the refinancing structure of the System's outstanding 2004 revenue bonds, saving almost \$40 million in debt service over the next several years. Interest income continues to lag with lower earnings rates available through capital markets for 2013.

Management's Discussion and Analysis (in thousands of dollars) December 31, 2013

Management's Discussion and Analysis
(in thousands of dollars)
December 31, 2013

Capital Assets (continued)

The primary change for 2013 and 2012 was investments made from bond proceeds for sewerage treatment facilities. No interest was allocated to capital projects during both years, and donated infrastructure of water and sewer lines from developers significantly since 2009 due to the economic downturn in new home construction.

Agreements with neighboring governments

The System is an equal equity partner in a joint-venture between the County and the City of Atlanta for the construction and operation of a water treatment facility in north Fulton County. The County and the City share equally the costs of construction of the plant, and each is entitled to receive 50% of the total water supply treated by the plant or 50% of the plant's capacity, whichever is greater. The System incurred operating costs of \$6.0 million and \$6.1 million for 2013 and 2012, respectively, for water produced at this facility. The net value of this joint venture is \$78,928 and \$81,087 as of December 31, 2013 and 2012, respectively.

The System has paid approximately \$167 million in prior years for the purchase of wastewater treatment capacity from neighboring systems, and capitalized the costs up to a 40 year period as required by accounting pronouncements, or shorter periods if contractually stated. These costs are shown as intangible assets within the capital asset section on the financial statements of the Water and Sewerage System fund, and are being amortized using the straight-line method. Amortization of these intangible assets, approximately \$5.3 million for 2013 and 2012, is classified as an operating cost on the Statement of Revenues, Expenses and Changes in Fund Net Position-Proprietary funds.

Long term liabilities

This chart displays the System's long-term liabilities as of December 31, 2013. All outstanding 2004 revenue bonds were refinanced in 2013, yielding over \$40 million in present value savings for system customers. Detailed analysis of System debt is contained within the footnotes.

Issue year	Interest rate range	Final Maturity Date	Outstanding balance	Annual principal installments	<u>Purpose</u>
Business-type activities:					
2013 Water and Sewerage	3.375-5.00	2034	252,461	3,560-33,905	Water/Sewer facilities Water/Sewer
2011 Water and Sewerage	4.75-5.25	2027	\$\frac{270,171}{522,632}	4,920-20,320	facilities

Contacting the System's Financial Management

This financial report is designed to provide a general overview of the System finances, comply with finance-related laws and regulations and demonstrate commitment to public accountability. If you have questions about this report or would like to request additional information, contact the County's Finance Department, 141 Pryor Street, Suite 7001, Atlanta, Georgia, 30303.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies

(a) Description of the System

The Fulton County, Georgia Water and Sewerage System Fund (the "System") accounts for the provision of water and sewerage services to individuals, organizations, and other governmental units within Fulton County (the "County"), except for those areas of the County serviced by the City of Atlanta. Additionally, the System sells water and treatment plant capacity to neighboring jurisdictions at contractually established rates. All revenues from sources applicable to such services and all expenses incurred in the provision of such services are recorded in the accounts of the System.

The System is considered an enterprise fund of the County, and the accompanying financial statements present only the statements of net position, revenues, expenses and changes in net position, and cash flows of the System; they are not intended to present fairly the government-wide statement of net position and changes in net position of Fulton County, Georgia in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Each year, the County publishes a Comprehensive Annual Financial Report ("CAFR"), which includes the System and all of the County's other funds. The latest available CAFR, at the date of this report, is as of and for the year ended December 31, 2013; the CAFR should be read in conjunction with these financial statements.

In accordance with GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, the System has elected not to apply any Financial Accounting Standards Board (FASB) Statements and Interpretations issued after November 30, 1989 to its enterprise fund. The focus for proprietary fund measurement is upon determination of operating income, changes in net position and cash flow. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and deprecation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The generally accepted accounting principles applicable are those similar to business in the private sector.

(b) Basis of Presentation

As required by various County ordinances and bond indentures, the financial activities of the System are accounted for in separate accounts established by such ordinances or indentures; each such account is considered a separate accounting entity and presented in the accompanying financial statements as a single enterprise fund.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (continued)

(c) Investments

Investments are recorded at fair value based on quoted current market values. Interest income on investments is accrued as earned.

(d) Capital Assets

Capital assets are recorded at cost or estimated historical cost. Depreciation is provided on the straight-line method over the estimated useful lives of the assets.

Normal maintenance and repairs are charged to expense as incurred. Major improvements to existing facilities are capitalized. Interest is capitalized on assets acquired with tax-exempt debt. The amount of interest capitalized is calculated by offsetting interest expense incurred from the date of borrowing until completion of the project with interest earned on invested proceeds over the same period.

The estimated useful lives of the principal classes of assets are as follows:

Classification	Years
System improvements	25-50
Equipment and other	7-12

Donated assets are recorded at their estimated fair market value when received as an addition to capital assets.

Direct costs such as planning, engineering, and construction management are capitalized as incurred in construction projects. Indirect administrative costs are expensed in the period in which they occur.

(e) Bond Premiums or Discounts/Debt Issuance Costs

Bond premiums or discounts are deferred and amortized over the term of the debt. Bond debt issuance costs are expenses as incurred to comply with new Governmental Accounting Reporting Requirement Statement No. 65. Bond premiums or discounts are also now presented separate from the face value of the outstanding debt, and classified as Deferred Outflows of Financial Resources.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (continued)

(f) Restricted Assets

Certain proceeds of revenue bonds, as well as resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because their use is limited by bond covenants.

(g) Other Liabilities

System employees are granted annual leave and sick leave in varying amounts. In the event of termination, an employee is reimbursed for an accumulated annual leave up to a maximum of 360 hours. Exempt employees are not eligible to receive compensatory time. Employees are not reimbursed for accumulated sick leave if terminated prior to retirement. Therefore, accrued sick leave is not reported in the accompanying financial statements. Upon retirement, accumulated sick leave may be counted as creditable service for pension benefit purposes. Liabilities for compensated absences other than sick leave are all considered long-term obligations of the System. Accumulated vacation leave is recorded as an expense and liability as the benefits accrue to employees.

(h) Interfund Transactions

Quasi-external transactions between the System and other funds and component units of the County are accounted for as revenues or expenses. Transactions that constitute reimbursements to a fund for expenses initially made from it that are properly applicable to the System are recorded as expenses by the System. Services provided by the System to other funds are accounted for in a like fashion.

(i) Restricted Net Position

Restrictions of Net Position are presented consistent with requirements of GASB Statement No. 34 and 63 and various bond covenants of the System.

(j) Statement of Cash Flows

For purposes of the statements of cash flows, the System considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

(k) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (continued)

(l) Risk Management

The System is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The System participates in a County-wide risk management program for all funds of Fulton County, Georgia. Pursuant to this risk management program, the County is self-insured for workers' compensation, unemployment, long-term disability, auto liability, and general liability and fully self-insured for employee medical claims. The County pays such claims as they become due and makes appropriate provision for the accrual of claims liabilities, including incurred but unreported losses. The System funds its estimated portion of the County's risk management activities via quasi-external transactions.

(2) Cash, Cash Equivalents, and Investments

The following is a summary of the carrying amounts of cash, cash equivalents, and investments of the System (in thousands of dollars):

Dece	ember 31,
2013	2012
\$ 154,033	112,463
-	44,986
3,812	17,315
90,578	91,157
\$ 248,423	265,921
	2013 \$ 154,033 - 3,812 90,578

Fulton County uses a centralized cash disbursement account for all of its funds including those of the Water and Sewerage System Fund. Although cash applicable to a particular fund is segregated for financial reporting purposes, the corresponding portion of the centralized bank account balance cannot be identified. The bank balances (county-wide) were covered by federal depository insurance or by collateral held by the County's agent in its name.

Interest Rate Risk

State of Georgia statutes authorize the County to invest in direct obligations of the U.S. government, obligations insured or guaranteed by the U.S. government or a U.S. government agency, obligations of any corporation of the U.S. government, prime bankers' acceptances, obligations of the State of Georgia or other states, certain collateralized repurchase agreements, certain obligations of other political subdivisions of the State of Georgia, certain certificates of deposit, and the Georgia Fund-1 state investment pool.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(2) Cash, Cash Equivalents, and Investments (continued)

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. As of December 31, 2013 and 2012, the System had the following investments:

D. 21 2012

		Decemb	er 31, 2013	
	Fair Value	to 3 months	4-12 months	1-5yrs
\$	90,578	-	47,534	43,044
•	90,578	-	47,534	43,044
	2,694			
\$	93,272			
		Decemb	er 31, 2012	
	Fair Value	to 3 months	4-12 months	1-5yrs
\$	128,487	-	44,986	83,501
	128,487		44,986	83,501
	24,660			
\$	153,147			
	\$	\$ 90,578 90,578 2,694 \$ 93,272 Fair Value \$ 128,487 128,487 24,660	Fair Value to 3 months 90,578	\$\frac{90,578}{90,578} \frac{-}{47,534} \\ \frac{2,694}{93,272}\$ \$\frac{\textbf{December 31, 2012}}{\text{to 3 months}} \\ \frac{128,487}{128,487} \frac{-}{44,986} \\ \frac{24,660}{24,660}\$

In accordance with its investment policy and bond covenants, the Water and Sewerage System fund manages its exposure to the risk of declines in fair values of investment by limiting the maturities of its investments to a maximum of five years for all debt service and debt service reserve accounts, and three years for investments held in the construction funds.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the System's deposits may not be recovered. The System limits its exposure to custodial credit risk by requiring all deposits to be collateralized in accordance with state law.

Credit Quality Risk

Credit Quality Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The US Agency obligations totaling \$90,578 as of December 31, 2013 and \$128,487 as of December 31, 2012 are rated AA. The money market funds and bankers' acceptances are not rated but are collateralized at 102%.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(3) Allowances for Doubtful Accounts

Allowances for doubtful accounts at December 31, 2013 and 2012 are as follows (in thousands of dollars):

	2013	2012
Customer receivables	\$3,189	5,987
Due from other governments	\$0	-0-

(4) Investment in Joint Venture

Atlanta-Fulton County Water Resources Commission - The Atlanta-Fulton County Water Resource Commission is a joint venture between the County and the City of Atlanta for the construction and operation of a water treatment facility in north Fulton County. The County and the City share equally the costs of construction of the plant, and each is entitled to receive 50% of the total water supply treated by the plant or 50% of the plant's capacity, whichever is greater. The costs of operation of the plant were borne pro rata by the City and the County on the basis of water delivered to each party. The County incurred charges of approximately \$6.0 million and \$6.1 million in 2013 and 2012 respectively, for water produced at this facility, which is classified as an operating cost to the Fulton County Water & Sewerage System.

The Atlanta Fulton County Water Resources Commission is governed by a seven-member management commission, three members of the Commission are appointed by the City, three are appointed by the County, and one independent member is elected by the vote of the other members. Both the City and County approve the annual budget of the Commission.

At December 31, 2013 and 2012, the County's share of the depreciated cost of the facility is shown as "Investment in joint venture" in the accompanying statement of net position.

Complete financial statements for the Atlanta-Fulton County Water Resource Commission can be obtained from the following respective administrative office:

Atlanta-Fulton County Water Resource Commission 9750 Spruill Road Alpharetta, Georgia 30022

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(5) Other Assets

Cost-Sharing Arrangements

The County paid \$58 million with neighboring Cobb County, Georgia in 2003 for the purchase of long-term wastewater treatment capacity at the R.L Sutton wastewater treatment plant and the adjoining underground conveyance system. In November 2007 the County incurred \$99.9 million in similar capital costs through facilities owned by the City of Atlanta. The County will share in the cost of annual capital improvements at these facilities on a pro rata basis, and incurred an additional \$10.8 million for the Cobb County facility during 2008. These costs appear as "Intangible Assets" and are included within the capital asset disclosure section of the Water and Sewerage System fund. These assets are being depreciated over 28 years for the Atlanta facilities and 40 years for the Cobb County facilities. Straight line depreciation of these intangible assets approximates \$5.3 million annually and is classified as an operating cost on the Statement of Revenues, Expenses and Changes in Fund Net Position-Proprietary funds. Amounts remaining are \$129.2 million and \$134.5 million as of December 31, 2013 and 2012.

Deferred charge on refunding of bonds, classified as a Deferred Outflow of Resources, and is \$6,848 and \$7,697 at December 31, 2013 and December 31, 2012.

No interest was required to be capitalized from borrowings related to water and sewerage system construction projects in 2013 or 2012. No material capital contributions were received in 2013 or in 2012.

(7) Revenue Bonds Payable – Long-term liabilities

In current and prior years, the County defeased certain outstanding revenue and general obligation bonds by placing the proceeds of new bonds and County resources in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts and the defeased bonds are not included in the accompanying financial statements. The Fulton County Water and Sewerage System issued \$223,265 in March 2013 to refund all outstanding 2004 revenue bonds and are considered defeased as of December 31, 2013. The average true interest cost of 3.63% decreased total debt service payments by approximately \$59 million resulting in an economic gain of \$40.3 million. An accounting loss of \$8,434 has been recorded in the Water and Sewer System financial statements as an extraordinary item for 2013.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(7) Revenue Bonds Payable – Long-term liabilities (continued)

The System issues revenue bonds whereby it pledges income derived from the System to pay debt service. Revenue bonds outstanding, net of unamortized premiums of \$58,197 and \$36,395 at December 31, 2013 and 2012, respectively, are as follows (in thousands of dollars):

	Interest	Maturity	Authorized	Total at December 31		
Issue	rate range	date	and issued	2013	2012

The revenue bond indenture contains significant limitations and restrictions on annual debt service requirements, maintenance of and flow of money through various restricted accounts, minimum amounts to be maintained in various sinking funds, and minimum revenue bond coverage ratios. The System's management believes that it is in compliance with all significant financial limitations and restrictions at December 31, 2013 and 2012.

This chart displays the System's long-term liabilities and related activity for 2013 and 2012.

	Balance January 1,			Balance December 31,	Due within

(8) Retirement Plans

(a) County Pension Plan

Employees of the Water and Sewerage System are employees of Fulton County and receive all benefits accorded other County employees. Retirement benefits are governed by statutes enacted by the State of Georgia and the County. The County maintains for eligible employees the Fulton County Employees Retirement System Pension Plan (the "Plan"), a single-employer defined benefit retirement plan. The Plan was created effective September 1, 1991, as successor to four separate County-maintained pension plans, for all eligible employees of Fulton County. Prior to the establishment of the Plan, the employees of the System were participants in one of two predecessor plans, the General Employees' Pension Plan or the Employees' Pension Plan. Employees who did not elect to participate in the Plan will continue to be eligible for the same benefits of the prior plan in which they participated; however, participation is a condition of employment for new employees as of September 1, 1991. Complete Plan financial statements can be obtained at the following address:

Fulton County Finance Department 141 Pryor Street, N.W., Suite 7001 Atlanta, Georgia 30303

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(8) Retirement Plans-(continued)

(a) County Pension Plan

The funding method and determination of benefits payable are provided in or authorized by various acts of the Georgia Legislature and statutes enacted by the County under home rule powers granted by the State. The Plan generally provides that funds to provide retirement benefits are to be accumulated from employee and County contributions and income from the investment of accumulated funds. Should the accumulated funds be insufficient to meet and pay the benefits when due, Fulton County shall be required to make up any deficiency.

The Plan provides monthly retirement benefits that represent 2.25% of the participants' monthly earnings (the average of the highest three 12-month periods of employment) for the first five years of creditable service and then 2.5% thereafter. The Plan awards cost-of-living increases annually, up to a 3% maximum. Benefits also may be payable at termination, death, or disability.

The County's contribution is the actuarially determined amount necessary to fund benefits, less employee contributions. The actuarially determined contribution amount is the sum of the annual normal cost and the amortization of the unfunded actuarial accrued liability over the years remaining in the allowable funding period. The actuarial cost method used for funding purposes is the entry age normal cost method. This is one of the approved methods for such plans in Georgia and provides for contributions based on a level percentage of future payrolls. The unfunded actuarial accrued liability is amortized on a closed basis over a period established by State of Georgia guidelines.

The required contribution percentages developed in the most recent actuarial valuations for the Plan, and the actual contributions made for 2013 and 2012 are as follows (in thousands of dollars):

	2013	2012
Total required employer contributions: Dollar amount Percent of covered payroll	\$ 52,882 145.85%	51,199 120.01%
Actual employer contributions: Dollar amount	\$ 56,244	46,065
Percent of covered payroll	155.12%	108.08%

Employee contribution rates are established in accordance with pension law. During 2013 and 2012, actual countywide employee contributions were \$2,533 and \$2,827, respectively. These contributions represented 6.99% and 6.63% of covered payroll in 2013 and 2012, respectively. As of June 16, 1999, this Defined Benefit plan was closed to new participants as the County adopted a new Defined Contribution plan under the IRS 401(A) provision for governmental entities. All active participants in the Fulton County Employees' Retirement System have the option to remain in their current defined benefit plan or elect to participate in the defined contribution plan.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(8) Retirement Plans-(continued)

The Plan's annual pension cost and net pension obligation (asset) for the current year were as follows (in thousands of dollars):

,	 2013	2012
Annual required contribution Interest on net pension obligation	\$ 52,882 (3,480)	51,199 (3,762)
Adjustment to annual required contribution	 3,763	3,883
Annual pension cost Contributions made with interest	 53,165 (58,438)	51,320 (47,750)
Decrease in net pension obligation (asset)	(5,273)	3,570
Net pension obligation (asset) beginning of year	 (44,051)	(47,621)
Net pension obligation (asset) end of year	\$ (49,324)	(44,051)

Effective as of the January 1, 2014 valuation, the Fulton County Employees Retirement System Board approved changes to the amortization period for experience gains and losses from 25 years to 20 years. The salary scale was also modified from 2% for the 2014 year and 4% thereafter was changed to 3% for all years thereafter.

Modifications to the actuarial changes for the January 1, 2013 valuation were approved by the Fulton County Employees Retirement System in January 2013, and include the following. The investment return assumption was additionally lowered to 7.8% from 7.9%. The salary increase assumption was reduced for 2013 from 2% to 0%, 2014 was reduced from 4% to 2%. A new mortality table was added for disabled participants, specifically the RP-2000 Disabled Annuitants Table, still projected to 2019 using Scale AA. Retirement rates for non-Public Safety participants were updated to 26.5% in each year after reaching eligibility for unreduced benefits, with 100% retirement age at age 70. Early retirement rates begin with 8.25% at age 50, grading to 12.00% by age 64. Retirement rates for Public Safety participants were updated to 60% in the first year of eligibility for unreduced benefits and 40% per year thereafter, with 100% retirement at age 65. Early retirement rates begin with 12.55% at age 50, grading to 23.75% by 64. Also, with the addition of assumed early retirement rates, it is now assumed that 80% of participants who retire with reduced benefits take the annuity. Withdrawal and disability rates for participates were revised to reflect experience between 2007 and 2011. The 6.5% load on compensation for vacation pay was reduced to 5.5%, while the 1.50% load on compensation for sick leave was reduced to 1.00%. The combined impact of these assumption changes was a decrease in the ARC of \$2.6 million. Also effective January 2013 the Board approved shortening the period for experience gains and losses from 30 years to 25 years, which increased the ARC by \$3.1 million.

(b) Defined Contribution Plan

The Fulton County Defined Contribution Pension Plan was established in June 1999 to provide retirement benefits for new employees, appointees and other County officials, as the defined benefit plan was closed. Mass Mutual serves as an independent administrator of the plan. At December 31, 2013, the plan had 4,239 total participants who contributed 6% of their pensionable earnings, approximately \$10,128 during 2013. The County also contributed \$13,504 which was 8% of their pensionable earnings throughout the year. Participants fully vest the matched contributions over a five-year period. Plan provisions and contribution requirements are established by and may be amended by the County Board of Commissioners within the scope of all applicable laws.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(9) Deferred Compensation Plan

The County has adopted a deferred compensation plan (the "Plan") in accordance with the 2001 revisions of Section 457 of the Internal Revenue Code. The Plan, available to all Fulton County employees, allows an employee to voluntarily defer receipt of up to 25% of gross compensation, not to exceed \$15,000. These are based on the new provisions of the 2001 Economic Growth and Tax Relief Reconciliation Act (EGTRRA). The Plan assets are held in custodial accounts for the exclusive benefit of the Plan participants and their beneficiaries and, therefore, the plan assets and liabilities are not recorded on the financial statements of the County. Valic, ICMA, Nationwide, MetLife and TIAA-CREF independently managed assets of the plan throughout 2013.

(10) Other Postemployment Benefits

The County provides certain health care and life insurance benefits for retired employees assigned to the System through an independent third party administrator, in which all of the County's employees may become eligible for these benefits if they reach normal retirement age while working for the County. Fulton County contributes 75-90% of the premium cost for health care coverage, based upon the plan chosen by the participant, and contributes 100% of the premium cost for \$10,000 of life insurance coverage for those employees retiring after December 1, 1988. The County pays 75% of the life insurance premiums for those persons who retired prior to December 1, 1988. The total cost to provide retiree health care and life insurance benefits are paid through a County internal service fund. In accordance with GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, the County's annual other postemployment benefit (OBEB) cost is calculated based on the Annual Required Contribution of the employer (ARC) which is required to be actuarially determined on a biannual basis.

Specific information regarding the County's OPEB liability and actuarially determined estimates are shown within the County's 2013 Comprehensive Annual Financial Report. The obligation to employees is a County-wide obligation, and not specific to the obligations of the System, but offered to County employees assigned to System operations.

In 2009 Fulton County government contributed \$2,185 to an irrevocable trust fund dedicated to pay for future OPEB claims against the unfunded accrued actuarial liability of \$1,795,309. No contribution was made subsequently, but the plan has earned \$1,455 since inception. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of future events. Examples include assumptions of future employment, mortality, and health care cost trends. Amounts determined regarding annual required contributions are subject to revision as results are compared with past expectations and new estimates are made about future trends.

Notes to Financial Statements (in thousands of dollars) December 31, 2013 and 2012

(10) Other Postemployment Benefits (continued)

The County's annual OPEB cost and net OPEB liability for the year ended December 31, 2013:

90,746
10,933
(10,862)
90,817
(29,189)
61,628
336,813
398,441

As of the most recent valuation date of January 1, 2013, the OPEB Plan funded status was as follows:

		Actuarial	Unfunded				
	Actuarial	Accrued	Actuarial			UAAL as a

(10) Other Postemployment Benefits (continued)

Actuarial Assumptions for the Other Postemployment Benefit plan are noted below:

Cost Method Attained Age Normal method

Actuarial Asset Valuation Method Not applicable

Assumed Investment Rate of Return 4.0%

Healthcare Cost Trend Rate 8.0% in 2013 to 5.0% in 2015 and thereafter

Inflation Rate 3.0% Estimated Salary increases 4.0%

Amortization Method Level, 30 years, open period

Latest valuation date January 1, 2013

(11) Contingencies

The System is a defendant in a number of legal actions in the nature of claims for alleged damages to persons and property, civil rights violations, and other similar types of actions arising in the course of normal System operations. In the opinion of System management, there are no suits pending or unasserted claims that would have a material adverse effect on the accompanying financial statements. System improvement commitments total approximately \$36,665 and \$18,681 as of December 31, 2013 and 2012, respectively.

(12) Extraordinary Item

The System issued 2013 Fulton County Water and Sewerage System revenue bonds to refinance all outstanding 2004 Fulton County Water and Sewerage System revenue bonds, which yielded significant savings to the Water and Sewerage system. This resulted in an accounting loss of \$8,434 which is shown as an extraordinary item on the Statement of Revenues, Expenses and changes in Fund Net Position on page 10 of these financial statements.
