Middle School Programs

2025 – 2026

6

Sixth Grade GSE: S6E3

blue traveler

Students play an interactive activity to discover the various pathways of water through the natural and human water cycles

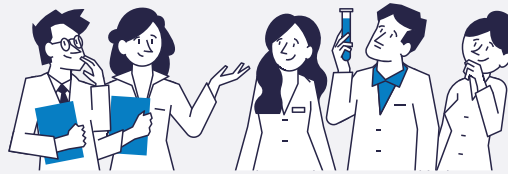

7

Seventh Grade GSE: S7L4

water quality lab

Students discover some of the methods used to monitor water quality in our local streams and discuss human activities that impact water quality and strategies to protect local waterways

8

Eighth Grade GSE: S8P5

a plume problem

Students analyze data to solve the mystery of contamination and identify a potential polluter to groundwater
