### Fulton County COVID-19 Vaccination Report

**Number of Fulton Residents with at least one dose:**
- *544,256*

**Percent of Fulton Residents with at least one dose:**
- *53.3%*

**Number of Fulton Residents fully vaccinated:**
- *486,511*

**Percent of Fulton Residents fully vaccinated:**
- *47.6%*

Compared to the State of Georgia, which has 40% of its population fully vaccinated, Fulton County is doing better than the state.

Fig. 1. Both Georgia and Fulton County are below the White House goal of having 70% of adults with at least one dose.

Fig. 3. Age Distribution Among All Fulton Residents with At Least One Dose
N = 544,256

Children under 12 are not yet eligible for vaccination. For information on vaccine eligibility and availability, or to schedule your Covid-19 vaccine, click here. Percentages refer to the percentage of age group population with at least one dose. Percentage vaccinated might appear to exceed the estimated number of individuals in a given age group or category. This could be due to increases in current resident numbers versus census estimates, which are based on 2018 census data.
